

What you get.

A real website for your business, built and looked after by one person you can text. Two ways to do it.

\$250 one time, to build it
then **\$25 a month** to keep it running

THE ONE-PAGE SITE

Included

- 01 "Text me" button that does the typing
Customers fill in a few quick boxes, tap once, and their phone opens a text to you with everything already written out. On a laptop it copies the message and shows your number instead.

EXAMPLE OF WHAT YOU'D GET

Hi! I'm Maria.
Looking for: a first appointment
Best days: weekends
Found you on: Instagram

to your number

- 02 A site designed around your business
Your photos, your colors, the way you talk. Not a template with your name dropped in.

- 03 Made for phones first
Most people find you on their phone, so that's where it's built to look best. It still looks right on a laptop.

- 04 Your work, front and center
A gallery, menu or list of services, whatever sells you best, and it loads fast.

- 05 Linked to where people already find you
Instagram, TikTok, Facebook, Google Maps, your reviews. One tap away.

- 06 Your own .com
First year included. Secure (https), no ads, no "made with" banner at the bottom.

- 07 Looks right when it's shared
A proper preview image and title when someone sends your link, and set up so Google can find you by name.

- 08 Two rounds of changes before launch
You look it over, tell me what to fix, I fix it. Twice.

EVERY MONTH, \$25

Looked after

- Hosting and your .com renewal, covered.
- Send me any photo, any time. It's on the site within 48 hours.
- New prices, hours, services or wording. Tell me and I change it.
- If something breaks, I fix it. No extra charge.

Cancel whenever you want. If you leave, the .com goes with you. Bigger jobs like new pages or a redesign get quoted separately.

\$500

one time, to build it
then **\$35 a month** to keep it running
(depending on what you're looking for)

THE FULL SITE

Everything in the one-page site, plus

01 Separate pages

About, Services, Gallery and FAQ, each with room to breathe instead of squeezed onto one page.

02 Online booking

Customers pick a day and time that works for you, right on your site. No back-and-forth to set it up.

03 Deposits when they book

Customers pay a deposit to lock in their spot, and it goes straight to your account.

04 A full gallery

Room for all your work, sorted so people find what they came for.

EVERY MONTH, \$35

Looked after

● Everything in the \$25 plan.

● Booking kept connected and working on your site.

● New services, prices or deposit amounts added to your booking whenever you need.

Booking runs on your own account, so your customers' payments never pass through me. If the booking app charges its own fee, it bills you directly.

COMPARED TO DOING IT YOURSELF

Squarespace costs about the same. And you do all the work.

	SQUARESPACE, 2026	FINCHED
Every month	\$25 on the Basic plan, paid monthly	\$25
Building the site	You, with a template	Me, designed around your business
Photos and changes	You log in and do it	You text me. Done in 48 hours
Your .com after year one	About \$20 a year extra	Included
When something breaks	Help articles and a support ticket	I fix it

Squarespace prices as published in 2026: Basic plan \$25/month paid monthly, or \$19/month if you pay the full year up front. Their prices can change.

Finched

Say yes and I'll get started.
